Art Unit: 2823

I. Restriction to one of the following inventions is required under 35 U.S.C. § 121:

I. Claims 1-8 drawn to a method of forming a silicon-containing insulating film wherein plasma is employed for the deposition, classified in class 438, subclass 778.

II. Claims 9-18 drawn to a semiconductor structure having the silicon-containing insulating film, classified in Class 257, subclass 632.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (M.P.E.P. § 806.05(f)). In the instant case, unpatentability of the group I invention would not necessarily imply unpatentability of the group II invention, since the isolation structure of the group II invention could be made by processes materially different than that of the group I invention, for example, the silicon-containing insulating film of the structure claims could be formed by a non-plasma type CVD.

Because these inventions are distinct for the reasons given above and, as shown by the above different classifications, the fields of search are not co-extensive and separate examination would be required, restriction for examination purposes as indicated is proper.

2 Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.

Art Unit: 2823

3 Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
